Subject: HV QAPP Comment 58 Resolution

Stephanie:

The CPG has prepared a document which describes the resolution of Comment #58 on the HV QAPP, consistent with the outcome of the November 15, 2012 call with EPA.

The CPG continues to work on the QAPP in order to begin the first High Volume round during the week of December 17, awaiting EPA's decision on the method for analysis of the 10L samples.

Please contact me with any questions or comments
